ABOUT THE SERIES

ministeps are made especially for very young children gaining their first experiences with books and toys. The products in the ministeps® program are uniquely designed to correspond to the physical, mental and emotional abilities of babies and very young children, ranging in age from infants to 36 months.

CONTENT

There are many rituals that help children ease into sleep, and young animals are no different. Each of the seven spreads in this board book features a beloved animal getting ready for bed, with fun rhymes explaining what they do. The baby birds want to hear lots of lullabies, the lamb wants to cuddle and snuggle, and the calf needs lots of goodnight kisses from its mama. And afterwards, it isn't hard to fall asleep at all.

THE AUTHOR

Sabine Cuno was an editor for a large children's book publisher, and later organized children's workshops and worked as a freelance editor. She has published diverse articles and has been working with Ravensburger on many projects. She is motivated by continual direct contact with children, including her own.
