### ABOUT THE SERIES

ministeps are made especially for very young children gaining their first experiences with books and toys. The products in the ministeps® program are uniquely designed to correspond to the physical, mental and emotional abilities of babies and very young children, ranging in age from infants to 36 months.

### CONTENT

Who might live behind this door? Extra-large and sturdy flaps offer a fascinating glimpse behind various stable doors and gates. In the stable, the cow and the horse are waiting for their feed, the chickens are laying eggs and the tractor stands ready in the large barn. Once opened, the flaps close of their own accord instead of staying open – thanks to a special seam. This allows even very young children to go exploring the farm on their own.
