A fun band of rascals

What's rattling here? A duck, a frog and many other animals are equipped with a colorful rattling ball in their middle. Even very young children can easily grip and shake this handy and sturdy book, triggering the cheerful rattling sound themselves. Short rhymes accompany the images, inviting young children to look closely and explore.

This play book is specially tailored to the development of young children and made from safe materials. It was developed by pedagogues and supports children in an age-appropriate and fun way.
