MAILIN does not want to accept this and plans to get herself and her sister back to Ireland as fast as possible!

This proves to be very difficult, however, since everyone at court is bound by Lyaskye and has limited free will. After several unanticipated developments, Mailin ends up with Peter, whose actual name is Liam, in his home, the Town of Thieves. He and several others founded this village outside the boundaries of Lyaskye because they question the powers that be.

Through a trick played by the world jumper Nathaniel, whom Mailin had met in Rubia, she and Liam are captured and brought back to the court. There Mailin is supposed to take up her role as future queen.

Back in the palace they find out that King Cassian is the actual ruler. He has subjected the queen to him and abuses her power for his own ends. He orders Mailin’s immediate coronation. As the crown touches Mailin’s head, Lyaskye penetrates her thoughts and tries to control her. But Mailin successfully defends herself and chaos erupts. With Nathaniel as world jumper, Mailin and her sister manage to escape – though Liam must stay behind.

**THE AUTHOR**

Jennifer Benkau writes books for adults, young adults and children. She has made a name for herself with the "Dark Canopy" series in particular, for which she was awarded a number of prizes, among them the 2013 DeLiA Literary Prize. In 2016, she and four other female writers founded the label INK REBELS. Fantasy is very close to her heart and she loves writing it with the help of loud music, chocolate and lots of coffee. She lives somewhere between Düsseldorf and Cologne with her husband, her four children, two dogs and a horse and is constantly looking for hidden portals into other worlds. Incidentally, that's also how she found a path to Lyaskye.
