A modern Pippi Longstocking with magical elements!

ABOUT THE SERIES

This shoemaker's workshop is full of magic! Here, you can buy shoes that make you faster, more courageous or more popular. But only children who are in real need of magical shoes can find Lilly Wonder's workshop, the dragon Archibald and Mrs Wu, the wise turtle.

CONTENT

Liz is extremely worried about her twin brother Tom. He doesn't have any time for his friends anymore and is letting things slide at school as well. Instead, he completely wears himself out in his musical group. Does that have anything to do with the new dance instructor who's supposed to get the troupe in shape for their next performance? Liz feels uneasy about the guy, but getting her brother to face reality will take the magic of magic shoemaker Lilly!

THE AUTHOR

Usch Luhn grew up in Austria. She studied communication studies in Berlin, trained as a screenwriter and film dramaturge, and has many years experience working in radio and children's television. The author has written more than 30 books, many of which have been translated into other languages.

THE ILLUSTRATOR

Alica R ath is always very excited when Monsieur Archibald knocks on the small window of her loft in Abensberg. He brings her sketches by Lilly's uncle Clemens and of course all the news from the magical shoemaker's workshop. Alica has been drawing these magical shoes since she started studying at the Academy for Design in Rostock, often deep into the night, while the dragon sleeps next to her, tucked into the bookshelf.
