This farm book is teeming with details, allowing children to discover many fascinating animals.

Two goat kids are frolicking in a field. Three moles are burrowing in the garden. And five little chicks are hiding in the chicken run. Can you find them all?

More than 50 lights will help you find them. Simply press the colorful buttons at the bottom of the book! Little lamps will light up and show you where the piglet, the watering cans and the little lambs are hiding.

Along the way, the little ones will learn to name the farm animals and be inspired to make their first attempts at counting.

THE ILLUSTRATOR

Naples is my city.

This is where I live, this is where I used to fill sheets, notebooks and diaries with my drawings when I was a child. After studying architecture, I realised that what I liked a lot more than straight lines and square corners was curved, soft pencil strokes, a magic wand that was capable of narrating my imagination in a blank space. These days, illustrating texts for children is my job; paper and pencil have given way to tablet and digital pen, but the passion and the feeling are still the same.
