ABOUT THE SERIES

Interactive, playful board books for very young children incorporate sturdy sliding elements on each page that set multiple things in motion and bring the animals to life.

CONTENT

What could that pink animal at the farm with the funny curly tail be? Baby's favourite animals are hiding behind fluffy little paws and wings. Children 9 months and over will be familiar with the principle from the well-known "Peekaboo" game.

Even very young children can easily push the soft fabric flaps aside and find the piglet, the frog and the monkey behind them, promoting your baby's impulse to explore and inspiring them to speak. Thanks to the spiral binding, the book remains open, allowing babies to explore the pages in detail. The outstanding production quality makes for enduring playing fun.
