CONTENT

Each of these little books is an entertaining search game for very young children, casually training their fine motor skills and teaching them to recognise and name their favourite animals.

The right-hand side of each of the book's five double pages features a large built-in, die-cut flap made from a felt-like fabric. Behind these flaps, children can explore a variety of animals in bold and colorful scenes.

Brief texts inspire children to find the animal on the cover of each book and discover what's behind the flaps.

THE ILLUSTRATOR

Naples is my city.

This is where I live, this is where I used to fill sheets, notebooks and diaries with my drawings when I was a child. After studying architecture, I realised that what I liked a lot more than straight lines and square corners was curved, soft pencil strokes, a magic wand that was capable of narrating my imagination in a blank space. These days, illustrating texts for children is my job; paper and pencil have given way to tablet and digital pen, but the passion and the feeling are still the same.
