CONTENT

There are so many colorful animals in the sea! But some of them, like the little fish, are really good at hiding. Even children's small hands can easily open the sturdy, saliva resistant tactile flaps made from thick fabric and find out. A brief question-and-answer game sparks the little ones' curiosity and playfully supports their language acquisition.

THE ILLUSTRATOR

Naples is my city.

This is where I live, this is where I used to fill sheets, notebooks and diaries with my drawings when I was a child. After studying architecture, I realised that what I liked a lot more than straight lines and square corners was curved, soft pencil strokes, a magic wand that was capable of narrating my imagination in a blank space. These days, illustrating texts for children is my job; paper and pencil have given way to tablet and digital pen, but the passion and the feeling are still the same.
